

SCHOOL TOILET PROCEDURE AND KEY HOLDERS

BNJCA does NOT have keys to toilets and has no further information about access other than that listed below. Please read the process below carefully.

At the beginning of the cricket season, the **Responsible** club should make arrangements with the school to access the toilets. This may mean paying a key deposit to the school and agreeing to pay any cleaning fees involved. If the school has **refused** access and this happens a lot now, then the **responsible** club, when they are called, should tell you that you can't get access. In these cases there is nothing either Brisbane North or the responsible club can do.

To obtain access/keys at a school ground when you are designated the HOME team, contact the **Responsible** club as listed in the **Ground Locations list** and obtain the Club Phone number from the **Teams contact pages** in the Allrounder section on the website.

Where a **non-responsible** club is playing at a school not designated as one that they are responsible for but is deemed a **HOME** team due to the draw, they should contact the **responsible** club and ask about accessing the toilets.

The above process is the only method which doesn't put schools offside. The reason is there is only one contact with the school about toilet access at the beginning of the season by the **responsible** club and not different teams each week contacting the school about toilets. Teams playing a **HOME** game away from their normal grounds should not have to contact the school.
